OBJECTIVE

Python Developer with expertise in Django and REST Framework, dedicated to delivering scalable, efficient, and user-focused backend systems and full-stack web applications.

SKILLS AND INTERESTS

Programming Languages: Python, Java, JavaScript
Backend Technologies: Django, Django REST Framework
Frontend Technologies: ReactJS, HTML5, CSS3, Bootstrap
Database: MySQL
API Integration: REST APIs, WhatsApp API
Version Control Systems: Git, GitHub
Soft Skills: Critical thinking, Problem-solving, Team collaboration

EDUCATION

S.B.B alias Appasaheb Jedhe Arts, Commerce & Science College	2021 - 2025
Bachelor of Computer Applications (BCA)	
PUSHPADEVI DUGAD JR. COLLEGE	2020
Senior Secondary (Class XII)	
Priyadarshani Shikshan Sanstha School	2018
Secondary (Class X)	

EXPERIENCE

Software Developer   **Mar** 2024 - **Present**

- Designed and implemented backend systems for web applications using Python, Django, and MySQL.
- Developed Adhub, a centralized employee monitoring and management system with features like dynamic form creation, WhatsApp API integration, and Facebook lead fetching.
- Enhanced system performance, reducing load times by 30% and maintenance costs by 40% through optimization and migration to modern tech stacks.
- Collaborated with cross-functional teams to deliver scalable, user-focused solutions in an Agile environment.
- Conducted rigorous testing and debugging, ensuring high-quality, reliable software products.

Web Development Intern

                                                          Sep 2023 - **Nov** 2023
- Built responsive, user-friendly websites using HTML, CSS, JavaScript, Bootstrap, and jQuery.
- Designed interactive features and optimized website performance for better user engagement.
- Implemented SEO best practices to improve website visibility and search rankings.
- Collaborated with team members to brainstorm and develop innovative web solutions.

CERTIFICATIONS

- **Java Full Stack Developer** (4Dimensions Infotech)

PROJECTS

Adhub
- Designed and developed a comprehensive system for **employee monitoring**, **task management**, and **lead tracking**.
- Implemented **WhatsApp API** and **Facebook lead fetching tools** to streamline workflow automation and communication.
- Enhanced operational efficiency and team accountability by incorporating custom dashboards and real-time reporting tools.

QR Code Management System
- Engineered a **role-based QR code management system** with functionalities for **data collection**, **customer rewards**, and **dynamic website creation** tailored for brand clients.
- Built a secure and scalable backend architecture using **Django** and **MySQL** to handle extensive datasets efficiently.
- Delivered real-time analytics and performance tracking dashboards to monitor campaign success and customer engagement.

POSITIONS OF Responsibility

Social Media Chanakya, Pune (Mar 2024 – Present)
- Designed and implemented backend systems using **Python**, **Django**, and **MySQL**, ensuring robust and scalable architecture.
- Led the end-to-end deployment of web applications, including **server configuration**, **database setup**, and **cloud hosting**.
- Developed **Adhub**, a centralized employee monitoring system, with features like dynamic form creation, **WhatsApp API integration**, and **Facebook lead fetching tools**.
- Enhanced system performance by optimizing code, reducing load times by **30%**, and lowering maintenance costs by **40%**.
- Ensured system reliability through rigorous **testing**, **debugging**, and monitoring of production systems.
- Collaborated with cross-functional teams in an **Agile environment** to deliver user-focused solutions.
